Brett:

Here is the first of nine emails conveying PDF Portfolio documents responsive to the Regional Administrator's July 17 request for our documents pertaining to requests for aquifer exemptions, EPA's approval

or denial of such requests, and any post-primacy appeals by the State regarding aquifer exemptions. The vast majority fall into the first two categories.

Please be advised that our search for documentation is still ongoing, and we expect we may find other documents.

Three things to note. First, if you can't open PDF Portfolios, they can be extracted by your IT folks to their component files, I believe. Let me know if this is not the case. Second, I was unable to break out the Olcese Exemption file into its component documents in time to make this delivery. Third, I did not get time to scan the Asphalto/Tulare exemption file, but will do so this week. I believe other aquifer exemption files exist, and am pursuing them.
